

How to Stay Safe Online

Online Safety

Help your kids stay safe online.
Work as a **TEAM**

The internet is remarkable. It has opened up a whole world of exciting and powerful opportunities for children to play, learn, create and connect. But with the digital world changing all the time, how can you make sure your child is staying safe online?

At Selwyn, we are committed to ensuring that our pupils fully understand the benefits and risks of using technology. Here are some of the ways you can keep your children safe online:

1
TALK

Talk to your child about how they use the internet. Find out what apps, websites and social media platforms they are using.

2
EXPLORE

Explore the digital world together. Ask your child to show you how to use the internet to ensure it is age appropriate and safe.

3
AGREE

Agree rules about how your child uses the internet. Make sure your child is clear about what is acceptable behaviour online.

4
MANAGE

Parental controls can be used to manage, block and filter content for your children. Explore your internet/ privacy settings and set up online parameters.
