### TfL STARS School Travel Plan Scheme Accreditation

Dear Selwyn Primary School,

I am delighted to announce that your school has achieved BRONZE standard for its TfL Stars Travel Plan.

Congratulations for all your hard work! As a BRONZE accredited school you have started your journey towards a safer, healthier school environment.

Throughout the year you have participated in council events and activities, or created your own, to raise awareness around road safety and sustainable transport, and have completed the annual travel school survey.

Your school is now one of 1500 in London making real, positive changes in their communities and encouraging road safety amongst pupils, parents and carers, and staff.

You are making a significant contribution in a huge effort to promote road safety and raise awareness about sustainable travel in borough schools. In 2015 Waltham Forest had only three schools accredited in the Stars Travel Plan scheme. The following year, this increased to 17 schools - we now have 40 accredited schools in 2017.

Continue with your great work this academic year - the council is ready and willing to assist you in working towards achieving the SILVER or GOLD standard next time around.

I congratulate you again for your excellent work helping make Waltham Forest, and London, a safer, greener and healthier place for everyone.

Kind regards,

**Cllr Clyde Loakes**  
Dep. Leader & Environment Portfolio Holder  
LB Waltham Forest
